## 1 General Overview

This is an SLA between the Customer and UNM IT to document the provision of:

- The Enterprise IT Vendor Relationship Management;
- The general levels of response, availability, and maintenance associated with these services;
- The responsibilities of UNM IT as a provider of these services;
- The responsibilities of the End-Users and Customers receiving these services;
- The financial arrangements associated with the service.

This SLA shall be effective as of the Effective Date set forth on the cover page and will continue until revised or terminated.

## 2 Service Description

UNM IT documents services and associated fees in the UNM IT service catalog, <http://it.unm.edu/servicecatalog>.

### 2.1 Service Scope

Vendor relationship management is critical in establishing a mutually strong relationship with Vendors to achieve the best possible results for UNM and our surrounding community. Enterprise IT Vendor Relationship Management is aimed at maximizing the value of UNM's Vendor agreements and corresponding services surrounding enterprise IT services.

Enterprise IT Vendor Relationship Management features include:

- Ensure coordinated and consistent Vendor relationships for enterprise IT services;
- Establish effective communication with Enterprise IT Vendors;
- Ensure appropriate Vendor incident management and service request protocols;
- Ensure appropriate Vendor escalation paths exist;
- Maximize Enterprise IT Vendor service quality;
- Leverage institutional, local, state and regional knowledge and buying power;
- Reduce and eliminate redundant Enterprise IT contracts;
- Ensure Enterprise IT Vendors meet UNM design, architecture and security requirements;
- Align Enterprise IT Vendor product offerings with the skillsets and technical direction of UNM IT to ensure a sustainable solution;
- Ensure Vendor compliance with regulatory requirements, including establishment of appropriate Business Associates Agreements (BAA);
- Ensure effective Vendor privacy and security protocols;
- Ensure effective Vendor backup and disaster recovery protocols;
- Ensure data ownership rests with UNM and include appropriate and necessary access to our data;
- Manage resulting licensing and maintenance agreements for compliance with Vendor contracts, including responding to license audit requests.
